Job Embedded (Ongoing):
District-Wide and Area-Wide versions*

**Why choose ongoing,
job-embedded PD?**

personalized
offer teacher choice
create teacher collaboration
prompt teacher reflection
promote application/implementation of best practices
provide timely feedback
lay groundwork for sustainability

Thanks for making this activity useful as well as helpful. Our staff and students have benefited.

Administrator, 19-20

I have enjoyed this class for many reasons. It was extremely practical and I was able to choose my own topic. I enjoyed using Google Classroom for posting assignment. My students got to see me as a learner, as I spent a lot of time telling them about my "homework" assignments. :)

Participant, 19-20

I have to admit, I was apprehensive at first, but I'm glad we did this class. I took from it a bag of tricks that I didn't use prior to the class. I'm excited to see where it takes me!

Participant, 19-20

I have learned strengths and weaknesses of my students as well as what motivates them and what they are interested in. This will empower me to provide opportunities that are more meaningful for each individual.

Participant, 19-20

**What do teachers and
administrators think
about
job-embedded PD?**

I really enjoyed this professional development. It's nice to have time to sort of "open our classroom doors" to those we work with and brainstorm together.

Participant, 19-20
